

Sustainability Workshop 'Go Green' Events

Team Focus:

Employee awareness
Engagement
Action

Numbers: 10 – 100 participants

Location: Indoors or outdoors

Times: ½ day

Objectives:

- To have a clearer understanding of environmental issues & sustainability.
- To demonstrate issues related to team dynamics, problem solving, time management, organisation, and leadership under time constraints.
- To encourage creativity and communication.
- Revitalise a one team philosophy.

“An interactive workshop to motivate your team and identify what changes they can implement to make a difference to global warming”

Overview:

This interactive workshop will give your team a clearer understanding of the impact we are all having on the environment. The session is run by one of our experts in the field who will deliver a presentation to help the group. Our expert will cover understanding the environmental situation and the underpinning science.

How it works:

Following a presentation the group will be broken up into smaller focus groups and are asked to come up with ideas and suggestions for the company to take on board as part of their 'Go Green' action plan. In addition they will need to create a visual representation of their key focus area. These ideas are then bought back to the whole group for discussion and implementation of a 'Go Green' action plan.

The Result:

The workshop results in the group creating an actual action plan that will be used back in the office, at home or within the community.

Programme Includes:

- Event manager
- Environmental expert
- Tools and equipment
- Laptop and projector for presentation
- £2 Million public liability
- Transport & Mileage
