“A challenge for the whole group to focus on the bigger picture and ensure that the pieces fit together – literally”

Overview:

Mosaic is a simple but very effective art form and we have created a fantastic challenge that gets your team working together. This imaginative and creative event gives delegates the chance to unleash their hidden talents in a motivational and fun environment. The challenge is relaxed and the whole group can chat and get to know each other as they work.

How it works:

Teams are set a challenge to design and create a large mosaic. Each team will receive a part of a larger mosaic to complete. This can be their own design, one of ours or a company logo. They are all working on the same project and have to pull together as one big team. Teams start with a limited palette of coloured mosaics and they must trade and negotiate with the other groups so that everyone has enough.

Results:

Teams will leave motivated with a sense of unity, group achievement, improved understanding of team dynamics, efficiencies and a lasting memory of the day.

“The mosaic activity went so well and the team really did enjoy doing something totally different. The mosaic is now up in our conference room”
