- To focus on your business objectives

Overview:

This is a challenging workshop that gives participants the opportunity to express their planning, communication and team work skills.

How it works:

The Bridge metaphorically represents the groups' (or teams') business objectives - where we are today and where we want to get to as a team or organisation. In essence, it examines what skills we will need as a team to bridge the divide.

The aim of the challenge is to construct a 36ft bridge from scratch and across imaginary water. All materials will be supplied.

The event can be enhanced and extended with a group discussion and planning period, as our facilitator explores the qualities needed from the team to complete this project.

Results:

A simple but effective way of demonstrating the need to collaborate and to work as a team towards a common goal.

Programme Includes:

- Event Manager
- Experienced instructors
- Pre event planning
- Tools and equipment
- £5 Million public liability
